

Drop.io Ideas

<https://drop.io/>

Drop.io allows free storage of up to 100MB of information. Files can be added via upload, phone, a note, a link, e-mail, fax, and more. Users do not have to register. Drop settings can be easily customized for use with an entire class, a collaborative group, or individuals. Materials are accessed via the web address for the drop. Access can be passworded.

The drop includes a phone number with unique extension for adding audio files and a separate phone number with unique extension for a collaborative discussion.

Consider purchasing the one drop upgrade for \$10.00 per year to have 1GB of storage.

Ideas for using Drop.io with audio files—

- ✓ Record directions for the assignments left for your sub
- ✓ Record the audio for a presentation for the first time
- ✓ Have students record themselves reading a passage
- ✓ Have world language students record their assignments from home
- ✓ Develop concept trailers for other students
- ✓ Develop vocabulary raps
- ✓ Talk through solving a word problem
- ✓ Work through the scientific process with an experiment
- ✓ Others???
